THE ELECTION AND ITS RESULTS.

The San Francisco *News Letter*, an efficient Democratic paper during the late canvass, though claiming to be "independent," has a review of the election and its results, from which we make some extracts:

Thanks to the Independent Press—the *News Letter, Bulletin* and *Union*—for a great intellectual, moral and political revolution in the State of California! Impressed with our importance, and the necessity of redeeming the State from the fangs of the wolves who had infested our lands and the harpies who had fed upon our murdered innocents, we resolved to overturn the politics of this State. Need we recite our grievances to justify our course? Did not an unjust and tyrannical Government incarcerate those good men and patriots, those martyrs to Democratic principles—Weller, Chipman, others—in the Bastile at Alcatraz? Was not Beriah Brown, that apostle of freedom, starved out of this State? Was not Zack Montgomery persecuted for his religious opinions? Was not Patsy Crowley elected Chief of Police in defiance of Father Gallagher, thus putting the incendiary's torch under the Catholic Church? Had not the bigoted Protestants refused to divide the school moneys? Had not the Union party met in its secret midnight conclaves, called Union Leagues, and resolved that every Democratic daughter should marry a nigger? And was it not generally known that Gorham had pledged himself to appropriate money from the State Treasury to erect a heathen temple for the worship of Josh, and by Legislative enactment compel Jews to eat pork at those festivals where the descendants of Confucius minister to their dead? Had not John Conness determined to take the telegraphic news from the *News Letter, Bulletin* and *Union*, and give it to the *Times, Mazeppa* and *Varieties?* All these things were known to the people; they were the great issues of the campaign, and it was in vain that such blatant demagogues as Stewart, Senator from Nevada, and Woods, Governor of Oregon—Pixley, Gorham, Conness and other small fry politicians—went about the State lying to the people, and telling them there had been a war; that prisoners had been starved at Andersonville; that General Grant was a patriot, and President Johnson had removed Phil. Sheridan; and that the policy of Congressional Reconstruction was fair and generous. Thank God, our people are too intelligent to swallow such stuff!—We are the great American people, and the Independent Press possesses all the journalistic honesty and decency in this State. If it had not been for our resolute course, and our determined and persistent effort, this State wouldhave ratified the Constitutional Amendment. We should have been dishonored in the Congress of the United States by representatives who would have been hostile to Jefferson Davis, and in favor of impeaching that great and good man, Andrew Johnson. John Conness would have disgraced us by his loyal votes, and by continuing for six years to co-operate in the Senate of the United States with those recreant Senators, Sumner, Wade, Fessenden and others. We breathe free again. Rejoice with us, all ye lager beer Dutchmen; you may swig your full of a Sunday, for Haight has left the Sabbath League. Shout all ye Irish; you shall not be compelled to marry a nagur. Be jubilant all ye Chivalry; you are equal to five Yankees, who make faces at the smell of codfish, and turn up their noses at the scent of mackerel.—California is redeemed, regenerated and disenthralled from the tyranny and oppression of that vile gang of plunderers, who have so long repressed the energies of our people and sapped the very life-blood of our prosperity. The eloquent Jo Hamilton, with his legal learning and graceful oratory, will, as Attorney-General, adorn our Supreme Court. That good man and patriot, Wm. Holden, will remain on the outside of the State Prison to watch the felons of the State. Dan. Gelwicks will be enabled, from the State Treasury, to maintain a daily metropolitan journal, which for ability and gentlemanly conduct shall equal the *Examiner*, under the lead of theose most excellent patriots, citizens and scholars, Washington and Pen Johnson.

ROBBERY AT CISCO.—Recently, in the night the Cisco House, kept by William Head, was entered and robbed. The thieves ransacked three trunks, stole a lot of clothing and about seven dollars and a half in money. They were frightened off while trying to get a trunk out of the window.

UP AND DOWN.—During the loyal demonstrations in honor of Phil. Sheridan every rocket discharged is remindful of two humble individuals. The rocket as it goes up, of Gen. Sheridan, of the stick as it comes down, of A. Johnson.

THE Oakland *News* says the copperheads are making a great to-do about starting newspapers in various quarters. It is hard to say what they want with more newspapers, when so few can read what they have.

A PARABLE FOR BUSINESS MEN—THE EFFECT OF PRINTER'S INK.

THERE was once upon a time a man who kept a store, and sold goods at wholesale and retail.

And became melancholy, because customers were shy, and times hard.

And he said: Lo! I am ruined, and the sensation is disagreeable,

And my ruin is more painful to bear, because it is slow in progress, even as water doth gradually become hotter in the pot wherein the lobster boileth, until the crustaceous creature shrieketh out his soul in anguish.

Lo! it is better to be ruined quickly than to endure this slow torture.

I will give my money away to the poor man—even the poorest, which is he who printeth newspapers; and I will shut up my shop, and wrap myself in sack-cloth of desolation, and pass my days in the perilous or broken banks, cursing the hardness of the times and rending my garments.

And the howling of Rome shall be as dulcet sounds of dulcimers, and they who blow the flutes and instruments of music, compared to the din I will make in the ears of the wicked—even in the ears of the bank directors.

And even as he said, so he did; for he was not like other men's sons, who are foolish and know it not, and they will do so and so, performing that which is contrary.

For the sons of men are fickle, and he that is born of a woman doth spite his face by diminishing the length of the nose thereof.

And, lo! the printer—even he who publishes newspapers—was made glad by the bounty of him who sold wholesale and retail; and he did sound his praises and print them moreover; and did blow his trumpet of fame respecting that man's dealings from the rising of the sun even to the going down of the same.

And he—even the printer of papers—did magnify and enlarge upon the stock of goods which the trader had in his store, and did publish the variety, and the excellence, and the beauty, and the cheapness thereof, till the people—yea! all of them, far and near, were amazed.

And they said, lo! this man hath gathered from the east and west costly merchandise and wares of wondrous value—even the workmanship of cunning artificers—and we knew it not.

Go to, then. We will lay out our silver and gold in those things which the printer printed of, and that which he doth publish shall be ours. For this man's merchandise is better than the bank-notes of those who promise to pay, and therein lie, even banks of deposit which beguile us of our money and swindle us like sin.

But the trader was sad, and he said. The money that these people bring me for the goods in my store I will give to the printer, and thus will ruin myself; I will do that which no man hath yet done in in my time, or before. I will make the printer man, whom all men scorn for his poverty, rich, and he shall be clothed in fine linen and rejoice.

And the sons of men shall meet him in the market-place, and the sheriff shall shun him, and the scoffers shall be rebuked, and shall take off their hats to him who was poor.

And he shall flash the dollars in the eyes of the foolish, and eat bank-notes and sandwiches. Yea, even shall he light his pipe with cotton money and cast his spittle on the beards of other men.

For I shall ruin myself, and he who advertises me shall enjoy the substance.

But, lo! the trading man—even he who sold merchandise, became rich, and even as the unclean beast lieth in the mire, so stirred he not by reason of much greenbacks. And the people flocked to his store from the North and from the South, and from the East and from the West.

And the printer rejoiced, and his "phat" did abound.

But the trader could not become poor, and his melancholy ceased, and the smiles of happiness were upon his face. And his children did become mighty in the land by reason of the dollars which many of the people who read his advertisements had poured into the trader's money-bags.

SPELL IT RIGHT.—We observe, says the Solano *Press*, that many of our exchanges have the name of "John Curry" hoisted at the head of their columns as the Union candidate for Supreme Judge, This is an error that needs correcting; his name is JOHN CURREY.

Copy of the Report of the Committee of Awards a the Fair of the

AMERICAN INSTITUTE

NEW YORK, 1865.

To the FLORENCE SEWING MACHINE CO. for the Best Family Sewing Machine,

HIGHEST Premium! Gold MEDAL!

REASONS:

1st.—Its simplicity and great range of work.
2d.—The Reversible Feed Motion.
3d.—The perfect finish and substantial manner in which the Machine is made.
4th.—The rapidity of its working and the quality of the work done.
5th.—The self-adjusting Tension.

The Florence was awarded the first and highest premium at the State Fair of California, the only Fair on the Pacific coast at which any two double thread Sewing Machines were exhibited in competition in 1865.

The Florence received the only premium awarded, by the Mechanic's Institute of San Francisco, in 1864 and 1865, to any Sewing Machine, Sewing Machine Co., or Agent. The claim of a competitor to a medal is without any foundation whatever.

Wherever the Florence has been brought in competition with other Sewing Machines, it has always been declared the best. It is the most simple, the most substantial, the most efficent, and its use is easily learned. Every Machine sold is guaranteed in the full sense of the word.

REMOVAL.

DR. TOZER,

Formerly of Lock Hospital, London,

Would most respectfully call the attention of the public of San Francisco and vicinity to the fact that he has removed his MEDICAL INSTITUTE from the corner of Jackson and Kearny streets,

TO 108 MONTGOMERY STREET, Adjoining Occidental Hotel,

Where he will be in attendance daily to administer to the wants of all those who may require his services.

It is impossible here to mention all the diseases with which he is familiar; some, perhaps, will not be out of place. The most formidable, the most destructive to mankind is Self-Abuse. The brain being the seat of the disease, the whole system suffers in consequence. I will here enumerate some of the symptoms, so that those afflicted may be able to form an opinion in regard to their complaints and seek advice in time, thereby saving themselves a world of suffering:

Nervous Debility, Loss of Memory, Pain in the Limbs and back, Palpitation of the Heart, Trembling of the Limbs, Headache and an aversion to Genial Society, especially that of Females.

There are a great many more, but these are sufficient, and should you be suffering from any of them, call on DR. TOZER, and he will cure you in a short time, without any interruption in your business—or state your case by letter, and there will be no occasion for your calling at the office.

STRICTURE OF THE URETHRA

Is another formidable enemy to health. Send for one of my circulars on that disease, and inform yourselves of its terrible results. The worst cases cured in a few days.

DR. TOZER has for the last forty years given his entire attention to the TREATMENT AND CURE of SPECIAL COMPLAINTS, and will GUARANTEE a cure in all cases. His remedies are Purely Vegetable, and positive in their action.

His remedies for all FEMALE COMPLAINTS have been tried in this City and State for the last fifteen years, with the greatest success.

His FEMALE PILLS are unrivaled in the cure of suppression of the monthly sickness. Price, $5 per box—to be had at the office only. Sent by mail or express on receipt of price.

A CARD FROM THE

AMERICAN WATCH COMPANY,

Of Waltham, Mass.

This Company beg leave to inform the public that they commenced operations in 1850, and their factory now covers four acres of ground, and has cost more than a million dollars, and employs over 700 operatives. They produce 75,000 Watches a year, and make and sell not less than one-half of all the watches sold in the United States.

The difference between their manufacture and the European, is briefly this; European are made almost entirely by hand, and the result is of necessity a lack of that uniformity, which is indispensable to correct time-keeping. Both the eye and the hand of the most skillful operative must vary. But it is a fact that, except watches of the higher grades, are the product of the cheapest labor of Switzerland and the result is the worthless Ancres, Lepines and so-called Patent Levers—which soon cost more in attempted repairs, than their original cost. Common workmen, boys and women, buy the rough separate parts of these watches from various factories, polish and put them together, and take to the nearest watch merchant, who stamps and engraves them with any name or brand that may be ordered.

How American Watches are made.

The American Waltham Watch is made by no such uncertain process—and by no such incompe-workmen. All the Company's operations from the reception of the raw materials to the completion of the watch, are carried on under one roof, and under one skillful and competent direction. But the great distingnishing feature of their watches, is the fact that their several parts are all made by the finest, the most perfect and delicate machinery ever brought to the aid of human industry. Every one of the more than a hundred parts of every watch is made by a machine—that infallibly reproduces every succeeding part with the most unvarying accuracy. It was only necessary to make one perfect watch of any particular style and then to adjust the hundred machines necessary to reproduce every part of that watch, and it follows that succeeding watches must be like it.

The Company respectfully submit their watches *on their merits* only. They claim to make

A Better Article for the Money

by their improved mechanical processes than can be made under the old fashioned handicraft system. They manufacture watches of every grade, from a good, low-priced and substantial article, in solid silver hunting cases, to the finest chronometer; and also ladies' watches in plain gold or the finest enameled and jeweled cases; but the indispensable requisite of all their watches is that they shall be GOOD TIMEKEEPERS. It should be remembered that, except their single lowest grade named the "Home Watch Company, Boston," ALL Watches made by them

ARE FULLY WARRANTED

by a special certificate, and this warrantee is good at all times against the Company or its agents.

AN EDITOR ROBBED.—Under this head the San Francisco *Critic* says:

"Strange as it may seem, it is recorded as an actual fact, that the editor of the Dutch Flat ENQUIRER was robbed during his recent visit to Sacramento. Says the Dutch Flat man:

"We were the victim of extortion, and were compelled to pay the monstrous price of six dollars per night in a second class house; this was for *room rent alone*, and before leaving, we took the precaution to get a receipt, which may be seen by all who are skeptical."

The *Critic* man then asks: "Did an editor ever have so much money before?" We suppose those fellows who edit one-horse papers at the bay seldom accumulate such fabulous amounts, but proprietors of first-class country journals have been known to possess that amount after years of toil and economy. That *was* our happy condition. We labored for months, night and day; exercised the strickest economy and prudence, keeping ourself scrupulously clean—turning our shirt regularly once a week—until we became possessed of ten dollars, which enabled us to borrow two more, when we left the happy scenes of our prosperity for the City of Plains and hotel swindles, and were robbed. Since our return we have been threatened with all sorts of vengeance for the two dollars we borrowed and can't pay, and the devil generally is to pay. However, by wearing a shirt two weeks and turning it three or four times, and taking a bit when asked to drink instead of beverage we think we'll be all right in the course of about four months. We learned one very valuable lesson, however, by the trip, which we are willing others should profit by: Never visit Sacramento during "fair time" if you have money.

BLOODY MARKS.—Newspapers received at the Walla Walla Post Office, by the Overland Mail lately, were clotted with blood. Doubtless the work of some "peaceable Indians" who thought it necessary to brand the mail as it passed through their country.—*W. W. Statesman.*

The Owyhee *Avalanche* in commenting upon the above item, says: "Think of that, ye that mourn over the wrongs of the poor Indian! Imagine, if you can, a scene in which a stage coach is a tacked by demons incarnate, the mails torn open and scattered around, letters and papers which perhaps yourselves have sent, dyed crimson with the life-blood of the unfortunate traveler, whose bones are left to bleach and molder on the desert sands. Imagine that it might be your parents or children, sisters or brothers, that have thus met their fate, whose last look on earth, while writhing under the scalping knife was directed homewards, and whose last faint words, as their eyes closed on earth forever, were whispered of you at home. Think of this and then sympathize with their murderers."

LETTER FROM IRA HARRIS.

A short time prior to the last election several of the Democratic papers and a few of their sympathizing friends of the independent press, published a letter taken from the New York *Herald*, purporting to be from the Hon. Ira Harris, Senator from New York, and ascribing to Mr. Harris sentiments entirely foreign to those entertained by him, indicating that he was in opposition to the Congressional policy of Reconstruction, and favoring that of President Johnson. The following is a refutation of the slander, stamping the letter previously published as a falsehood. We can call upon the "independent" press of our State to give the following genuine letter as great publicity as they did the forgery. The letter is addressed to the Albany *Evening Journal*, and explains itself:

SIR: My attention has been called to what purports to be a letter written by me—though signed "Ira E. Harris"—and published in the New York *Herald* of this morning. No such letter has been written by me or by my authority. I have not been in the City of New York since the 13th of July, nor have I seen the *Herald's* article headed "The New Crisis." I have no knowledge of its contents. The fabrication imputes to me sentiments which I do not entertain. I am in favor of the Congressional policy of Reconstruction. I believe it right to enfranchise the negro. Nor are the statements of a personal character attributed to me any nearer the truth. My two sons served "under the Union flag," but neither of them have fallen. Nor is it true that I have purchased a plantation in Alabama, or that I contemplate removing thither. In short, I pronounce the publication a forgery—false, both in its statements of facts and in the opinions it ascribes to me. You will oblige me be the publication of this note.

IRA HARRIS.

Albany, August 10, 1857.

HYPOCRISY OF THE INDEPENDENT PRESS.

One of the terrible effects of vice is the propensity it leaves in its victims to self-justification. This is especially apparent when one has done great evil under false pretenses. The Independent press of this State out of pure selfishness and revenge did its best to defeat the ticket and destroy the Union party. It had influence enough to drive some to the Democracy; others to scratch the ticket; others still to disgust and indifference. It continually averred that the destruction of the party was a lesser evil than the success of such a ticket. To justify itself in such a course, it charged Mr. Gorham with various crimes, and the Convention which nominated the ticket with the basest trickery, corruption and fraud. Not only has no proof been presented to substantiate these charges, but all that from their nature could be so met have been disproved by indisputable testimony. Now we are entering upon a new contest with the enemies of justice and truth: one which from the results of their diabolical work, must be very close and doubtful to the most hopeful view, and what is their present course? Have they taken back one false word of theirs? Have they presented any testimony, so abundantly furnished, to rectify their misstatements, to call them by the mildest possible name? Have they given the men who from principle supported the cause and worked hard for success, a single word of commendation? Have they shown the least compunction for the terrible ruin wrought? Not a word of it. And now when the dispatches sent to the East by the triumphant friends of the rebels come back claiming that Johnson has been endorsed and Congress condemned; they reply in feeble drivel that they are mistaken; that the issue was entirely local and has no significance beyond the borders of the State. It was merely a protest against corruption and fraud in the party. And now they profess to be exceedingly zealous for the remaining nominees of the tricksters' Convention because they have no personal ends to subserve by their defeat, and they have pockets extremely fearful of leakage from the withdrawal of Union patronage. And what is the masterly skill with which they conduct this severe and important contest before us? Why alongside of the praises of Currey and Swett, they fill columns with extracts from the eastern papers of the echoes of their own falsehoods. And while their own correspondents are astounded with the complete ruin they have wrought, they still continue to pluck it down by reiterating the exploded and disproved charges against the party and its nominees. If we admit that they are sincere in desiring the election of Currey and Swett, we have daily palpable proof that they are infinitely more in earnest to fasten the brand of infamy upon the only men who will vote for them. This apparent sincerity in the advocacy of right in the past and now, is the only dangerous weapon they wield. This pretence of right ends has enabled them to lead some men to the use of disastrous means, or what is as fatal, to refrain from using the only means to accomplish right political ends. It was infinite stupidity or hypocrisy which dictated the course of the independent press in the late canvass, and it is now proving by its course in this, that it can learn nothing by experience; and we very much fear that they will ruin the chances of Currey and Swett by their continued abuse of the real, live, working men of the party. Mr. Gorham is doing all in his power to counteract the malign influences of their daily slanders, and all the Union papers are laboring with all their might, while the course of the independent press is making it exceedingly difficult, if not impossible to win the fight. And if won at all, it will be in spite of the malignant abuse constantly cast upon the best Union men by pretended friends.

A FACT.—The *Examiner* always speaks the truth when it is policy. It says:

Had the *Union* and *Bulletin* stood up for the Gorham ticket with the same zeal that they manifested to defeat it there would have been no disaffection in the party. The ticket was in every respect as good as any ever put forward by the radicals.

And the whole ticket would have been elected. We have repeatedly said that there was no "defection" until created by the "Independent press," and that the Union ticket was not "odious" until made so by the outrageous lies of the press determined to elect Haight, the Copperhead.—*Appeal.*

THE NEW ORGAN.—The ninety-three pupils of our public school, together with the teachers, trustees and friends, are greatly delighted with the new organ, from the manufactory of Mason & Hamlin. Several times a day it leads the happy voices of the children in filling the air with melody.

HOUSE BURNT.—The new dwelling house of Mr. Parker, at Gold Run, was destroyed by fire on Thursday afternoon, with all its contents, except a bed, chair and three sacks of flour. The carpenters were just putting on the finishing touches when fire was discovered at the rear of the building among the shavings near a work-bench.—Whether a spark was blown from a fire across the street, or a little child playing about had struck a match, or how it caught is not known; but the flames spread so rapidly that everything was destroyed. The telegraph wire running over the house was melted.

DEAF, DUMB AND BLIND ASYLUM.—The ceremonies of laying the corner stone of the Deaf, Dumb and Blind Asyltm took place near Oakland on Thursday of last week.—The ceremonies were conducted by Governor Lowe, assisted by Ira P. Rankin, John Sweet, M. Wilkinson, and others. The site of the edifice is at the foot of a stretch of hills, seven miles from Oakland, and it covers 130 acres, 40 of which is level ground and the remainder hills, running back to the Contra Costa range of mountains. The view is said to be the finest that could have been selected; the Golden Gate, with the brord expanse of the Pacific, the placid waters of the Bay, the numerous islands in the harbor, the fortifications, and a fine plain expanded before the view on one side; on ether, the pleasant Santa Clara fields and the line of the San Jose railroad. The site seems to have been "selected with admirable judgment, and when the children who, by what may be considered unkind nature, have been deprived of its best gifts, are installed in the new institution, they will have reason to feel grateful to the generosity of the State in providing them with comfortable, spacious, and well appointed quarters." Mr. Wilkinson closed a feeling address in the following language:

"I congratulate the friends of humanity and of education on the bright promise of to-day. May this institution be built up in the favor and confidence of the people, and never lack a friend to plead its cause. Above all do we invoke the blessing of Him in whose service we humbly labor and wait."

The corner stone was next laid by Governor Low. The glass jar contained documents connected with the institution, copies of newspapers and a manuscript of the names of National, State and municipal officers.—It was read by Rev. Mr. Benton, and after going through the ordinary formality, Governor Low standing on the stone spoke as follows:

"The work which you have assigned me to do I have performed. The corner stone of a new and noble building for the institution for the care of the deaf and dumb and the blind has been duly laid in your presence, in the trust that the building will go on to completion and endure, and the institution will live and prosper as long as charity exists in the human heart, and objects of pity and sympathy of our own race can be found worthy of its exercise. During his term of office as Governor of the State of California he had met his fellow-citizens on several occasions, sometimes to deplore the fratricidal acts of the people of other States, sometimes to express their loyal adhesion to the Union, sometimes to celebrate the victories of their soldiers and sailors, sometimes to deplore the defeat of those who were defending their country; sometimes it was to mourn over those who had served them on the field and fell in battle, and again to express their grief when he who led them in the council chamber was the victim of violence and was laid in the dark chambers of death. Sometimes they met to found colleges and halls of education. To-day they were not met to found out to perpetuate; for it was to the charity of the ladies that they were indebted for the existence of the Asylum. As Professor Wilkinson had said, these institutions were the tide-marks which denoted the progress of civilization and the amelioration of our race. What California had done for charity, and especially for this Institution, he should always feel proud of. He hoped that all the assistance the State might hereafter give this and other institutions would be turned to a good use. He could say for this Institution that the management had done what he believed had never been done by any management of public funds before in this State, expended them with a single eye toward the attainment of the objects to further which they had been given. He concluded by leaving the Institution to the charities of the State, invoking the blessing of a merciful God on those who would be its inmates in the future, on their instructors, directors and supporters."

DEAD BODY FOUND.—We copy the following from the Sonora *Herald*, of the 28th of September:

On Monday last, two boys were driving home some cows, about two miles from this place, when they discovered the body of a man hanging to the limb of a tree. Information was at once sent to the Coroner, who immediately summoned a jury and repaired to the spot. From the testimony we gather the following facts: The name of the deceased is Dick Michall, a native of Bremen, and aged about 44 years. The boys had left the trail along which they were traveling and entered this rather secluded spot in search of pine nuts, when they made the discovery. He had been confined in the Asylum at Stockton for a year or more, on a charge of insanity, but had been discharged, and had latterly been in the County Hospital. He was accustomed to work round there, and was in the habit of taking a walk every day, but was always at his post at meal time. About two months ago he went out as usual, but did not return. Fifteen or twenty men searched for him all one day, but to no purpose, and nothing was heard of him until found as above stated. It is supposed he must have hung himself immediately after leaving the hospital, as his body was in an advanced stage of decomposition, and the birds and beasts had eaten nearly all the flesh off his bones. He was recognized only by his clothes. The jury returned a verdict according to the above facts.

FATAL ACCIDENT.—The annexed particulars of a late fatal accident near Pacheco are from the *Gazette* of September 28th:

On Monday, the 16th instant, a boy twelve or fourteen years of age, who had been living for a time with Jackson Dunn, a few miles from this place, met with his death under the following circumstances: Dunn had occasion to leave home in the morning, and directed the boy to remain at the house with Mrs. Dunn, but shortly afterward he took Dunn's gun without leave and disappeared, and on his return at night Dunn, finding the boy still absent, went out about the hills and shouted for him without success; but Thursday following, the corpse of the poor lad was found at a gap in a picket fence, through which it was apparent that he was crawling when the gun accidentally went off, the charge entering his neck and passing out through the crown of his head. The body when found was in so advanced a state of decomposition as to render an immediate burial necessary.

DOVETAILING MACHINE.—Elander Heath of San Francisco, has invented and intends to patent a dovetailing apparatus. It consists of a series of circuler saws. The operator takes a board and puts it into the machine and in three minuies hands you a box. It costs only $250.

RELIANCE.—The members of the Hose Company will please bear in mind that the regular meeting of the company will take place at their rooms on Tuesday evening next, for the election of officers and the transaction of other important business. A full attendance is requested.

GONE.—Hon. William Higby, member of Congress from this District, lef for Washngton City on Monday of last week. He was accompanied by his family.

LISLE LESTER IS giving dramatic readings at Boise City, Idaho, of wh'c'i the *Statesman* speaks in very favorable terms.

NEW AND BEAUTIFUL.—At the funeral of the infant son of Mr. Moore, of Gold Run, on Thursday last, the corpse was borne to the grave by four little boys.

THE President has pardoned A. H. Stephens and R. M. T. Hunter, and no steps have been taken to try Jeff. Davis.

ABOUT ten miles of the Pacific Railroad, in the most exposed places within the snow belt, has been roofed in.

SUPPOSED MURDER.—A correspondent of the Sonora *Herald*, writing from Big Oak September 21st, says:

Henry R. Maltbie, an old resident in this vicinity, a native of Georgia, was found on his mining claim, at Marsh's Flat, with eight buckshot in his back, near the shoulders, and one, probably a pistol ball, in his temple. The inquest failed to point out the cause or the perpetrator of the deed.

THE MAINE LAW.—The good people of Maine have been trying the virtues said to lie in a strict enforcement of this well-known statute. The constabulary having concluded their legitimate labors, have recently been employed as follows, if we may believe the Standard, puolished at Augusta. It says: We give the following as the result of the last week's labor:

A cow arrested for having 'two horns.'

A colored individual, lately deceased, fined for being 'on his bier.'

A pair of boots seized for being 'tight.'

A little boy's kite sentenced to have its tail cut off for having a 'high time.'

A clothing dealer 'hauled up' for advertising 'Great Bargains.'

A confectioner tried for selling 'gingersnaps.'

A horse ran away and smashed a wagon. The horse was promptly arrested; but it being proved that the 'smash' contained nothing intoxicating, he was acquitted.

Several 'cocktails' found in the hencoop of a prominent citizen, were confiscated. The success of the police in this seizure caused much 'crowing,' and it will doubtless 'spur' them on to increased activity.

An unfortunate Hibernian was locked up for getting a 'punch' in the head.

A worthy shoemaker seized on suspicion of being a 'cobbler,' but providing that there was no 'sherry' connected with him was released on condition that this should be his 'last' offence. He was informed that any future direliction, would involve the confiscation of his 'all.' The excitement 'waxed' intense.

"Well, Bridget if I engage you, I shall want you to stay at home whenever I wish to go out."

"Well, ma'am, I have no objections," said Bridget, "providin' you do the same when I wish to go out."

CHOLERA!

MR. PERRY DAVIS:—Sir: The benefits I have received from the use of your invaluable remedy, the Pain Killer, induces me to pen you a word in its praise. Experience has convinced me that for Headache, Indigestion, Pain in the Stomach, or any other part of the system, severe Chills, Weariness, common Colds, Hoarseness, CHOLERA, CHOLERA MORBUS, Diarrhœ, Dysentery, Toothache, etc., THERE IS NOTHING BETTER THAN THE PAIN KILLER. I have this hour recovered from an attack of the Sick Headache, by using two teaspoonsful, taken at thirty minutes interval, in a wine glass full of hot water. I am confident that, through the blessing of God, it saved me from the cholera during the summer of 1843. Traveling amid heat, dust, toil, change of diet, and constant exposure to an infected atmosphere, my system was daily pre-disposed to dyssentery attacks, accompanied with pain, for which the Pain Killer was a sovereign remedy, one teasroonful curing the worst case in an hour, or, at the most half a day. I have heard of many cases of Dysentery being cured by its use. Put in the teeth, it will stop the toothache. Gratitude and a desire for its general use, has drawn from me this unsolited testimonial in its favor.

REDINGTON & CO.S

ESSENCE OF JAMAICA GINGER.

THIS valuable preparation, containing in a highly concentrated form all the properties of the Jamaica Ginger, has become one of the most popular domestic remedies for all diseases of the stomach and digestive organs.

As a tonic it will be found invaluable to persons recovering from debility, whether produced by fever or otherwise, for whilst it imparts to the system all the glow and vigor that can be produced by wine or brandy, it is entirely free from the reactionary effects that follow the use of spirits of any kind.

It is also an excellent remedy for females who suffer from difficult menstruation, giving almost immediate relief to the spasms that so frequently accompany that period.

It gives immediate relief to Nausea, caused by the riding in a railroad car, or by sea-sickness, or other causes. It is also valuable as an external application for Gout, Rheumatism, Neuralgia, etc.

CHINESE IN NEW YORK.—Around the east side of the City Hall Park may daily be seen sundry Chinamen attending cigar stands. Their pigtails have long been cut off, and their coarse black hair, hanging stiffly down, is cut evenly round their necks and ears. They no longer wear their native costume. Of the fifty or sixty living in this city, two or three only speak English, and that very imperfectly. The rest speak scarcely a dozen words of it. They live entirely among themselves, and hold little relation with the outside world. Their employments are manufacturing cigars, keeping cigar stands, and acting as cooks upon ships. In all they earn a good subsistence, and being closely economical, they save money.

They live in the tumble-down tenements of Cherry and Baxter streets. But one among them has a Chinese wife. She is neither young nor attractive. No trace of her former costume remains. A few are bachelors, and the rest are married to Irish or German women. Many of these women are remarkably pretty, and could readily have found white partners. Human beings have an affinity for their physical opposites, and these pug-nosed and black-haired Chinese have attracted wives with classic features and light hair. Their children, consequently, are a passable compromise between the two in facial structure, and vary but slightly in complexion from whites. Neither wives nor husbands understand a word of each other's language beyond the commonest expressions, though they may have lived many years together. An Irish wife was asked how her husband performed his courting. "Ah, he had English enough for that, sir," was Biddy's reply.

The bachelors are apt to crowd together. One single room may be mentioned, ten feet square, in which six men sleep and cook. The sleeping places accommodate two, and are built in three tiers, like the bunks of a ship's steerage. Their occupants are contented with bare boards, and do not use mattresses.

In their cooking, vegetables are rarely used, excepting potatoes; all their stews are highly spiced.

The Chinamen pursue their callings on Sundays as on other days. They give little trouble to the police. The children attend school, and are growing up ignorant of their father's tongue.

The whole region in which these Chinese live is a nursery for thieves and brutes, miasmatic to the lungs, and poisonous to every good impulse of the human soul. There is not a house or a human body in it that does not need the daily stream of a fire engine.

THE UNION PLATFORM.

The Union Party of the State of California, in Convention assembled, hereby present to the people of this State their platform and declaration of party principles:

Resolved, That in the present, as in the past, we are irreconcilably opposed to treason and to traitors, whether the same shall attempt to subvert our Union and control our Government by fraud and treachery from within, or force from without; and that upon the loyalty of the Nation, tried and proven, we rely to re-establish firmly and forever the bonds of our National Union.

Resolved, that in reconstructing the nation its foundations should be justice and its architects loyalty, and we are unwilling that those so active to destroy, should be the chosen and preferred builders to erect it, and until it shall appear that in the States lately in rebellion loyal Committees exist capable and ready to administer justice and enforce law in accordance with the principles of a government of freemen and equality, it is our wish that the Government be administered and the law enforced by the loyal agents of the Federal Government.

Resolved, That in the reconstruction plan of the late Congress we recognize a policy as wise as it is magnanimous, and when the respective States late in rebellion shall bring themselves within its provisions, we will welcome them as sisters and receive them as equals in a reconstruction Union.

Resolved, That we deem the passage by the Legislature of a law establishing eight hours labor as a legal day's work, eminently just and proper.

Resolved, That the importation of Chinese or any other people of the Mongolian race into the Pacific States or Territories, is in every respect injurious and degrading to American labor, by forcing it into unjust and ruinous competition, and an evil that should be restricted by legislation and abated by such legal and constitutional means as are in our power.

Resolved, That the future primary elections of the Union party in this State should be held under the provisions of the primary election law, and that such test should be prescribed and enforced as shall exclude all persons not members of the Union party.

Resolved, That we fully approve the amendment to the Constitution of the State, presented by the Legislature of 1866, and providing that the Legislature shall have no power to make an appropriation of money for any purpose whatever, for a period longer than two years; that the same should be accepted by the Legislature, adopted by the people and become part of the Constitution of the State.

THIS CELEBRATED INSTITUTE

has enjoyed on this coast an uninterrupted success of fourteen years, and has become one of the renowned Hospitals of the age. What the celebrated Lock Hospital is to London, and the no less renowned establishment of Ricord is to Paris, this Institute has become to the Pacific coast. The thousands annually received and cured place it in point of number of patients among the very first of the world and the success of its treatment ranks it second to none.

PRIVATE DISEASES IN MALES and IRREGULARITIES IN FEMALES are the great destroyers of health. They insidiously attack the system and gradually undermine and destroy it; they drive the bloom from the cheek, the lustre from the eye, the strength from the frame; they give to the world puny and diseased offspring, and poison, through successive generations the race of man. The marks can be seen in Scrofula, Consumption, Cripples, the Idiotic, the Paralytic, the Insane, etc.

There is no more terrible scourge to the human race than those diseases arising from the contamination of Venerial Poison. The mildest forms, by retreating to the blood, hold over the afflicted one, the destruction that is liable at any moment to fall and blight—to utterly destroy—all earthly hopes.

MERCURY, recognized as the most fatal medical enemy to man, combining with the Vengreal, doubles its dangers. Those who have been treated with that pernicious mineral poison are not cured; the disease has only assumed a new form.

Do not be satisfied with partial cures

that leave the poison to crawl through the system, eating its way into the tissues and organs beneath the apparently smooth surface, to burst out in the future with a virulence that will baffle the effects of medicine. WHEN PERFECT CURES can be obtained by consulting a physician whom long practice and thorough investigation into the causes of DISEASES of the URINARY ORGANS enables to determine at once the nature of the disease.

In all cases entrusted to the Doctor's care, PERFECT, SPEEDY and PERMANENT,

Cures are Always Guaranteed.

In syphilis and its adjuncts; Gonnorrhœa and its accompanying diseases; and all diseases of the Bladder, Kidneys, and prostrate; Seminal Weakness Diseases of the Heart and Lungs; Dyspepsia; Indigestion, Impotency; Incipient consumption, and all diseases of the urinary organs, in either sex, cure always warranted, NO PAY REQUIRED, at the

Private Medical Institute,

No. 536 Washington street, San Francisco, Cal.

Seminal Weakness or Spermatorrhœa

The young man who experiences that growing weakness in his muscular and menta organization should stop to consider whence it arises. He will find in the weakness of the back, trembling of the limbs, disordered digestion unaccountable failing of the powers of the mind, distaste for society, dread of impending trouble, forebodings of evil, sleeplessness, troubled and lascivious dreams, accompanied by growing deafness, loss of muscular power, and numerous other symptons of disorganization, the positive traces of that most terrible and destructive of all diseases Seminal Weakness—wasting away his powers, destroying his hope of life and manhood, and dragging him along the broken path of his existence towards a premature and loathsome grave. To him who finds his life dribbling out in the discharge of the vital principle of existence in nocturnal and diurnal emissions, the mere cessation of its appearance brings no assurance of relief.

Marriage, that holy office, the safeguard and hope of manhood, brings to such an one no hope of cure, but adds to his misery in the knowledge that he one, who looks to him for so much of her happiness, is a victim to his evil, and an innocent companion of his punishment. He adds to his misery and disorder until hope leaves him. There is no rescue except in proper and skillful treatment. Consult then, at once, a physician whom long practice and careful research has made thoroughly conversant with every phase of the disease. Those who have become the victims of solitary vices, that dreadful, fascinating and destructive habit, which fills thousands o sick-rooms with paralytics and consumptives, and hundreds of untimely graves with its misguided victims, should consult, without a moment's delay, one who will sympathize with their sufferings. To such the Doctor would especially address himself, giving to each and all assurance of a PERFECT and PERMANENT CURE, without hindrance to business, change of diet, or fear of exposure.

Do not forget the address. See below.

Important to Females.

When a female is in trouble or afflicted with disease and requires medical or surgical assistance, the enquiry should be, Where is there a physician who is fully competent to administer relief, and whose respectable standing in society recommends him to the confidence of the community? The Doctor understanding how imperatively necessary, these requirements are, feels called upon to interpose, and beg the attention of the afflicted to the fact that he has been a Professor of Obstetrics and Female Diseases for twenty years, and is fully qualified to administer in all cases, both medically and surgically, not in a superficial manner, but in as thorough a manner as years of study and practice—both in hospitals and private families—can make, to save them from the hands of the unqualified, unscrupulous and designing. Therefore families can rely upon him as upon a father. All in affliction can find in him one who will feel and sympathize with and befriend them in trouble—one in whose secrecy the utmost confidence can be placed. Consultation by etter or otherwise, FREE. See address below.

THE CELEBRATED FEMALE REMEDIES, compounded from the private prescription of Dr. Young, have now obtained a most extended popularity, and are correctly viewed to be the safest and surest remedies for the complaints for which they are applied. The constantly accruing testimonials of their efficacy declare them to be pre-eminently superior in their action. No lady should be without these Renovating Agents. None genuine unless procured at this office.

HOPE FOR THE AFFLICTED.—In another part of this paper will be found the advertisement of the celebrated Institute established by Dr. J. C. YOUNG, in 1850. In this age of deceit and charlatanism it is a boon to the suffering to point out to them where they are sure of obtaining the wished for relief and cure. Under the care of the skillful Doctor the sick and troubled can divest themselves of their burdens of pain; lay aside their cross, and secure health and happiness. If you are sick or in trouble, do not hesitate. Read the advertisement and follow the advice. Do not forget the number or the manner of directing your letters. Consultation Office, 540, Washington street, San Francisco. Dec-3m

MEDICAL ADVICE.—DR. WM. K. DOHERTY'S Medical and Surgical Institute is becoming a sine quo non to the welfare of our State and health of our citizens; and his rapidly spreading reputation, although it may excite surprise, is but the signal of skill, and follows as the natural result of such a cause. We are personally acquainted with gentlemen who had suffered for years under chronic disease, and who had taken advantage of every available means that promised relief, but without success, until they called upon Dr. Doherty, who, in an incredibly short space of time, has given them entire relief. It is gratifying to announce this fact, because the Dr. is a gentleman who seeks, not by defamation of others to establish his reputation or ruin of another's fame. The Doctor conducts his own Institute in such a manner must be gratifying to all his patients. He examines, advises, and recommends without charge, and the patient, after hearing his terms for treatment, can accept or reject at pleasure. In no case does the Doctor make a charge unless he effects a cure. This he is able to do, because he feels the confidence which long experience has given, and no doubt the consolation which appertain to that confidence. Persons afflicted with either acute or chronic disease, would do well to consult the Doctor; at all events, it can do no harm, as for consultation he asks no fee; nor does he insist on obedience to his advice unless the patient places himself under his care. His offices are on Sacramento street, opposite the Pacific Mail Steamship office.—News

SPECIAL MEDICAL NOTICE.—DR. CHAS. H. TOZER would most respectfully inform the sick and afflicted that his MEDICAL INSTITUTE is removed to No. 108 Montgomery street, next door to the Occidental Hotel, San Francisco. Having relinquished my old modes of advertising, which has become so common with all the Quack Doctors of San Francisco, filling up the newspapers with false references, for the purpose of imposing upon strangers. I think it is only necessary to inform those in need of a Physician of long experience and successful practice, that I can be consulted at all business hours, at my Medical Institute, corner of Kearny and Jackson streets, San Francisco.

Ladies suffering from the Whites, Piles, Weakness of the Back, Pain in the Side, Headache, Palpitation of the Heart, Derangement of their Monthly Sickness, and all other diseases that the Female System is subject to, will find prompt relief by applying to DR. TOZER.

My Female Monthly Pills were never known to fail in giving relief in those cases for which they are recommended. To be obtained only at my office. Price $5 00 with full directions on each Box. Sent by mail or express.

Address CHAS H. TOZER, M. D., San Francisco, Cal., or Lock Box, 1884. Consultation Free.

MEDICAL.

FRENCH MEDICAL OFFICE.

DR. JULIEN PERRAULT, Doctor of Medicine of the Faculty of Paris, Graduate of the University Queen's College, and Physician of the St. John Baptiste Society of San Francisco.

DR. PERRAULT has pleasure to inform patients, and others seeking confidential medical advice, that he can be consulted daily at his office, Armory Hall Building, North-East corner Montgomery and Sacramento streets, San Francisco. Rooms No. 9, 10, 11, first floor, up stairs entrance either Montgomery or Sacramento streets.

DR. PERRAULT'S studies have been almost exclusively devoted to the cure of the various forms of Nervous and Physical Debility, the results of injurious habits acquired in youth, which usually terminate in impotence and sterility, and permanently induce all the concomitants of old age. Where a secret infirmity exists involving the happiness of a life and that of others, reason and morality dictate the necessity of its removal, for it is a fact that premature decline of the vigor of manhood, matrimonial unhappiness, compulsory single life, etc., have their sources in causes, the germ of which is planted in early life, and the bitter fruit tasted long afterward; patients, laboring under this complaint, will complain of one or more of the following symptons: Nocturnal Emissions, Pains in the Back and Head, Weakness of Memory and Sight, Discharge from the Uretha on going to stool or making water, the Intellectual Faculties are Weakened, Loss of Memory ensues, Ideas are clouded and there is a disinclination to attend to business, or even to reading, writign or the society of friends, etc, The patient will probably complain of Dizziness, Vertigo, and that Sight and Hearing are Weakened and sleep disturbed by dreams, melancholy, sighing, palpitations, faintings, coughs and slow fever; while some have external rheumatic pain, and numbness of the body. Some of the most common symptons are pimples in the face and aching in different parts of the body. Patients suffering from this disease, should apply immediately to DR. PERRAULT, either in person or by letter as he will guarantee a cure of Seminal Emissions and Impotence in six to eight weeks.

Patients suffering from venereal diseases in any stage Gonorrhea, Gleet, Strictures, Bubo Ulcers, Cutaneous Eruptions, etc., will be treated success fully. All Syphilitic and Mercurial Taints entirely removed from the system.

DR. PERRAULT'S diplomas are in his office, where patients can see for themselves that they are under the care of a regularly educated practitioner. The best references given if required.

Patients suffering under chronic diseases, can call and examine for themselves. We invite investigation; claim not to know everything, nor to cure everybody, but we do claim that in all cases taken under treatment we fulfil our promises. We particularly request those who have tried this boasted doctor, and that advertised physician, till worn out and discouraged, to call upon us.

Low charges and quick cures.

Ladies suffering from any complaint incidental to their sex, can consult the doctor, with the assurance of relief.

Female Monthly Pills.

DR. PERRAULT is the only agent in California for DR. BIOT'S Female Monthly Pills. Their immense sale has established their reputation as a female remedy, unapproached, and far in advance of every other remedy for suppressions and irregularities, and other obstructions in females. On the receipt of five dollars, these Pills will be sent by mail or express to any part of the world, secure from curiosity or damage.

Persons at a distance can be cured at home, by addressing a letter to Dr. PERRAULT, corner of Sacramento and Montgomery streets, Rooms, 10 and 11, or Box 973, P. O., San Francisco, stating the case as minutely as possible, general habits of living, occupation, etc., etc.
